PROFESSIONAL PROFILE

I am a motivated Management Information Systems (MIS) graduate with a strong interest in leveraging technology to solve real-world problems, particularly through user-centered design. Over the past year, I have gained practical experience in UI/UX design, front-end fundamentals, and product support, including the design of a product advertising website, contribution to the development of an educational portal for skills acquisition, and the design of an application addressing an environmental challenge. I possess strong problem-solving abilities, adaptability, and a professional approach to collaboration within team-based environments.

TECHNICAL SKILLS

- HTML, CSS, JavaScript
- Responsive Web Design
- UI/UX Design (Figma)
- Wireframing & Prototyping

SOFT SKILLS

- Analytical Thinking
- Time Management
- Team Collaboration
- Adaptability
- Problem Solving
- Professional Documentation (Microsoft Word)

PROFESSIONAL EXPERIENCE

Freelance

UI/UX Designer

September 2025 – Present

- I am collaborating with the front-end engineer to design a mobile app, creating user-friendly interfaces using Figma.

- I attend meetings to share progress updates and adjust the designs based on client feedback to meet project needs.
- I am working on improving the app's layout and usability, ensuring it works well across different mobile devices.

Asaccov Global Nigeria Limited, Akwa Ibom

Web development/ UI/UX Design Intern

March 2024 – August 2024

- Assisted in designing intuitive and modern user interfaces using Figma.
- Developed wireframes and prototypes to improve user experience.
- Supported web development tasks and cross-team collaboration.
- Adapted quickly to new technical and operational responsibilities.
